

THE HERO ART PROJECT pairs members of [ARTHOUSE.NYC](https://arthouse.nyc)'s artistic community with family members who have lost a loved one working in the Healthcare Community due to Covid:19. These artists will then create a portrait of these individuals to celebrate their heroism. We will share the artwork with the public on at the Big Screen Plaza in NYC. The sudden loss of a loved one is never easy for surviving family members. Due to Covid restrictions, the pain of the loss was intensified as many of these grieving families were not able to be surrounded by family and friends for comfort. The goal of this project is to bring about love and healing throughout our global communities, honour these heroic souls and give back with love and art.
